E-Safety and ICT Survey

Dear Parents,

ICT is becoming increasingly prevalent in teaching and learning across the school. Access to the internet and electronic devices opens doors to reams of information and resources to support children’s learning. It also opens up risks for online safety and protection. It is our duty to ensure children learn about the benefits and risks of the online realm and how they can keep themselves safe.

At school we provide access to a range of ICT software and equipment and would also like to find out what other devices or equipment children access at home. The information will be used to develop our E-safety Curriculum for pupils and possible guidance, information evenings and support for parents.

Please could you complete this form and return it to your child’s class as soon as possible.

Thank you,

Mrs Dowler
