Netball league

The long awaited final league table.

A wonderful sporting event played in superb sportsmanship with some amazing teamwork and individual skills.

The Year 5/6 Netball League was played at the schools with each school visiting the others schools to play the matches.

Each school played four matches, one against each of the other schools.

The matches were played according to the High 5 rules, which involve rotating positions and have a squad of players with the non-playing players scoring and or supporting their teammates.

The basic (simplified) aim/ rules are; non-contact and the ball must be passed and not dribbled through the thirds of the court into the shooting half circle where only the goal-attack and goal-shooter can attempt to score.

Here are some of the quotes from the match reports showing how well all the teams performed:

“Passing was very accurate overall and some great intercepting from both sides.”

“...a highly competitive, fast paced and by all accounts very enjoy contest.”

“Both teams played magnificently and the joy they got from the match was easily seen by all the audience,.....”

“It was the first ‘official’ match for some players but you wouldn’t have known from watching that actuate passing and pin-point shooting on show.”

“Both sets of players persevered admirably and represented their schools well.”

“Both were super quick with their passing and excellent with their defence.”
